

MAHIN AHMAD EMON

FULL STACK DEVELOPER / SOFTWARE ENGINEER

Mirpur-10, Dhaka-1216 | [+88 01625335297](tel:+8801625335297) | mahinahmad911@gmail.com | github.com/MahinAhmadEmon | portfoliomahin.netlify.app

PROFESSIONAL SUMMARY

Punctual, self-motivated Computer Science student and aspiring Full Stack Developer with a strong foundation in software engineering, object-oriented programming, and web development. Proven track record in UI/UX form design, requirement gathering, system architecture, and building user-centric desktop and web applications using C# (.NET), Java, JavaScript, HTML5, CSS3, and Laravel. Strong communicator, problem-solver, and collaborative team player seeking to leverage development skills in a professional software engineering role.

TECHNICAL & PROFESSIONAL SKILLS

Programming Languages: C#, Java, C++, JavaScript, HTML5, CSS3, OOP

Frameworks: Laravel

Databases: MySQL, Oracle, Relational Database Management Systems (RDBMS)

Developer Tools & Version Control: Visual Studio, VS Code, Notepad++, Code::Blocks, Git, GitHub

Design & Utility Software: MS Office Suite, Adobe Premiere Pro, Wondershare Filmora, Canva, AutoCAD, NI Multisim

Core Competencies: UI/UX Form Design, System Analysis, Role-Based Access Control, Debugging & Testing

PERSONAL PROJECTS

Travel Guide — Role-Based Travel Platform

Laravel, PHP, MySQL

- **Role-Based Access:** Built a full-stack platform with three roles — Admin (full system oversight), Scout (adds and manages destinations), and User (views destination value, location, travel directions, and cost).
- **End-to-End Build:** Designed the database and built the application from the ground up, with guidance from senior developers.

ACADEMIC PROJECTS

SmartKroy — Multi-Vendor E-Commerce Platform

C# (.NET Framework), Windows Forms, MySQL

- **UI/UX & Analysis:** Designed and structured responsive, intuitive user interface forms and navigation architecture for a multi-user platform.
- **System Functionality:** Engineered role-based access control modules tailored for System Admins, Registered Customers, and Suppliers.
- **Core Modules:** Integrated automated billing calculations, real-time product/inventory tracking, and centralized supplier record management.

Shop Management System

Java, File I/O (Notepad DB), VS Code / Notepad++

- **Development:** Developed a desktop application to store, catalog, and track inventory and price metrics for gaming hardware and computer products.
- **Key Features:** Implemented modular forms supporting full CRUD operations (Add, Delete, Edit, Update product records and stock statuses).

Air Attack — 2D Air Combat Game

C++, OpenGL, GLUT / FreeGLUT, Code::Blocks

- **Gameplay & Graphics:** Real-time rendering, animation, keyboard controls, and collision-based gameplay mechanics.
- **Core Systems:** Aircraft movement, enemy spawning, projectile shooting, collision detection, and score tracking.

EDUCATION

Bachelor of Science in Computer Science & Engineering (CSE) — American International University-Bangladesh (AIUB)

2023 - 2027

- Major in Software Engineering | Kuratoli, Khilkhet, Dhaka 1229

Higher Secondary Certificate (HSC) — Dhaka Commerce College

2022

- Background: Science | Commerce College Road, Dhaka 1216

LEADERSHIP & EXTRA-CURRICULAR ACTIVITIES

Moderator & Customer Relations — Odyssey Square (E-Commerce Page)

2024 - 2025

- Manage online customer inquiries, oversee product delivery logistics, and ensure accurate, on-time order processing.

Volunteer & Team Leader — The Biggest Astronomy Carnival

2021

- Directed a volunteer team in managing crowd flow, assisting event attendees, and coordinating program scheduling.

LANGUAGES

Bangla (Native / Fluent in Speaking and Writing) • English (Fluent in Speaking and Writing)
